

ENGLISH	MATHEMATICS
<p>Students will develop their understanding of the written language and its features through our literature-based units of work. These units of work will provide students with the opportunity to explore concepts such as oral language and communication, vocabulary, phonics knowledge, reading fluency, reading comprehension, creating written texts, spelling, handwriting and understanding and responding to literature. Students will learn to plan, compose and edit their written texts using correct structure and grammatical features.</p> <p><b>Literacy Groups</b></p> <ul style="list-style-type: none"> <li>Literacy groups will take place throughout the week with students rotating around a variety of activities including, phonics, writing, reading and comprehension, grammar and punctuation.</li> </ul> <p><b>Phonics/ Spelling</b></p> <ul style="list-style-type: none"> <li>Students will learn a variety of sounds through explicit teaching and through the synthetic phonics program <i>Soundwaves</i>.</li> </ul>	<p>Students will develop their understanding of the follow mathematical concepts:</p> <p><b>Number &amp; Algebra</b>            Whole Number            Addition and Subtraction            Multiplication and division            Patterns and algebra            Fractions</p> <p><b>Measurement &amp; Geometry</b>            Two-dimensional space            Position            Length            Area            Three-dimensional space            Volume            Time</p> <p><b>Statistics and Probability</b>            Data</p> <p><b>LIBRARY/RESEARCH SKILLS/COMPUTER SKILLS</b></p> <p><b>Technology Skills</b></p> <ul style="list-style-type: none"> <li>Learning the parts of a computer and how to use them.</li> <li>Learning to login to the computer system.</li> <li>Learning to use the paint program and word program.</li> </ul> <p><b>Library</b></p> <ul style="list-style-type: none"> <li>Students will have the opportunity to borrow books from the library on their class library day.</li> </ul>
SCIENCE	HISTORY / GEOGRAPHY
<p><b>Materials and Changes</b>            Focus in on everyday materials and how they can be physically changed in a variety of ways. The shape of objects can be changed by twisting, stretching and bending. How a material may be altered if it is heated or cooled.</p>	<p><b>Geography</b>            In Semester Two, Year One will study 'Features of Places' where they will explore features of places and the connections or different ways that people interact with and care for places. Students will investigate the natural and human features of places. They will study the reasons places change and identify the active role of citizens in the care of places. Students will learn about how people describe the weather and seasons of places. They will explore activities occurring in places and how the spaces within places can be used for different purposes.</p>
CREATIVE ARTS	PD/H/PE
<p>This term, Year One will be studying drama. Students will explore how the elements of drama can be used to convey stories, depict events and express feelings. They will participate in a range of drama activities including improvisation, role play and reader's theatre to explore familiar and imagined situations.</p>	<p><b>Health</b></p> <ul style="list-style-type: none"> <li>Positive Behaviour for Learning (PBL) rules, expectations and rewards</li> <li>Strengths and Strategies for Child Safety</li> </ul> <p><b>PE</b></p> <ul style="list-style-type: none"> <li>SISA Dance</li> <li>Fundamental movement skills and tactics in team games</li> </ul>
